1st PROJECT

Purchase 1 Hectacre of Land US \$20,00

1. At this moment the most important project is the purchase of a field of appropriate measures for self-sustaining peace garden (at least 1 hectare). The approximate cost is \$ 20,000. Plot Details: located in San Marcos Sierras, with water in the subsoil, measuring approximately 1 hectare minimum. Note: we have decided on San Marcos Sierras, after several trips to travel and see places, as a cultural and ecological reserves, natural area named antinuclear, with constant water irrigation and a level of metal pollution moderately low.

2nd PROJECT

2 x Domes US\$ \$ 1,000

2. We need to finance the construction of 2 domes (one to accommodate visitors, another multi-use meditation, space for meetings). The approximate cost is \$ 1,000. Details of each of the domes, wooden structure, anchored on the clay base or ground level, covered with canvas double insulation measures c / u 13 m. in diameter.

3rd PROJECT

Solar System US\$ \$ 2,000

3. Solar Home System to supply and power generation. The approximate cost is \$ 2,000. Details of the system: a 100 W solar panel, a charge controller, two stationary batteries 65 A, a pivotal support for the panel, a 600W power inverter, a control panel, two 12V 16W LED tube, ten lamps low-energy, ten ceramic lamp holders and accessories for installation.
